

ARCHITECTURAL COLORS

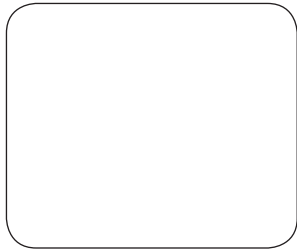

Vivid colors add new dimension to great architectural design.

The right colors create visual interest, enhance beauty, and promote a sense of balance.

Laminators offers more than 40 stunning color choices to complement your design, covering a range of aesthetics and applications. We can also create or match custom colors to your specifications, making it easy to maintain consistency in corporate identity projects.

Mission Red

Brite Red

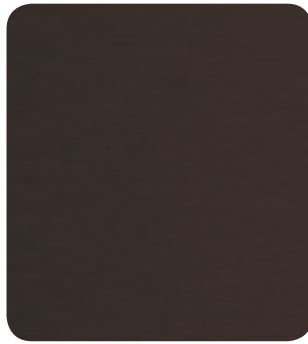

Metallic Paint: Color variation is a characteristic of aluminum composite panels with metallic paint finishes. Laminators DOES NOT warrant a color match for these panels.

Colors are as close to actual painted metal as possible with available printing techniques. Actual color chip samples are available by request.

NATURAL SERIES (ANODIZED ALUMINUM)

Clear Matte

Dark Bronze

Disclaimer / Note: Due to deviations inherent to the raw aluminum surface, anodized aluminum products may display a range of color shades, which do not indicate a product defect. Aluminum finishes are directional and may show a shift in visual appearance when viewed at different angles. When ordering, please indicate if material is for inventory or a specific project that requires consistency throughout.

DESIGNER SERIES

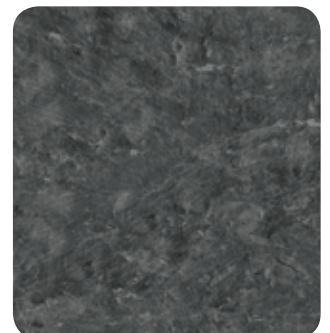

Warm Cherry

Honey Oak

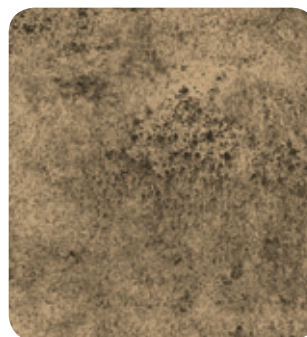

Dark Walnut

Grey Slate

Green Slate

Spanish Stone

Brushed Zinc
