MADE. MASTERED. DELIVERED.

In addition to the colors shown here, unlimited custom colors are available. Laminators Incorporated can match custom colors to your specifications, making it easy to maintain consistency with corporate identity projects.

KYNAR 500® STANDARD COLORS

Laminators' Kynar 500® standard colors provide a versatile selection of architectural finishes designed to support long-term color retention, durability, and exterior performance. Available across a wide range of popular hues, these factory-applied PVDF finishes deliver a consistent, high-quality appearance for architectural cladding, signage, and exterior panel applications.

ANODIZED FINISHES

Anodized Metals are very consistent; however, some lot variation should be expected. Laminators Inc. cannot control mill lot variation. In addition, grain direction of the aluminum must be considered in the design of the panel installation. Opposing grain directions may create visible patterns and may not be acceptable in the finished building design.

Clear Matte

Extra Dark Bronze

Black Matte

Contact **Laminators Inc.** for complete terms, limitations and exclusions.

DESIGNER SERIES

Designer Series colors offer specialty woodgrain, stone, and textured finishes that bring the look of natural materials to architectural metal panels. Designed for lasting durability and visual appeal, these finishes provide added design flexibility beyond traditional solid colors.

Refer to chart for **complete panel size info**. **Metallic Paint:** Color variation is a **characteristic of aluminum composite panels** with metallic paint finishes. Laminators **DOES NOT** warrant a color match for these panels.

FINISH WARRANTY TERMS

Warranty coverage varies by **finish, application and project conditions**. Coverage is subject to the requirements, limitations and exclusions outlined in the applicable written warranty. Contact Laminators Inc. to confirm coverage for your specific project.

Color Variation

Metallic and anodized finishes may show natural variations in color, sheen, mill lot and grain direction. These variations are inherent to the material and may be more noticeable between production runs. Exact color matching between panels or samples is not warranted.

Contact **Laminators Inc.** for complete terms, limitations and exclusions.

PANEL SIZE & FINISH CHART

Use the chart to compare available colors, surface finishes and panel widths. Availability varies by color, with select options offered in stucco-embossed or smooth finishes and 48-inch or 60-inch widths. Contact Laminators Inc. to confirm current availability, lead times and custom color options.
